Sister Cities International (SCI) is the oldest and largest volunteer network of citizen diplomats in the world.

Since its inception in 1956, SCI has worked to create global relationships based on cultural, educational, information and trade exchanges. Supported by 500 member cities with 2,000 partnerships in 146 countries, including 32,000 volunteers, 15,000 students, and 24,000 citizen diplomats, this worldwide network of people create exchanges that foster world peace, support national security, and strengthen the economy.

The result? Participants develop lifelong friendships that provide prosperity and peace through person-to-person citizen diplomacy.

DELIVERING A BIG IMPACT

Every day you see reports of conflict, hatred, and mistrust between people. SCI is successful at breaking down these barriers. Just look at our history. We fought devastating wars with Germany and Japan and now through people-to-people connections, there are over 320 partnerships between the U.S. and Germany and Japan.

GLOBAL LEADERS CIRCLE: focusing attention on a more peaceful world

You now have the opportunity to invest in this worldwide movement and help us do even more. Through our network we want to:

- Involve more students in youth programs including our Youth Leadership Summit, Young Artists and Authors Showcase and High School Homestay;
- Prepare the next generation of leaders through university intern programs;
- Involve more people through exchanges and educational programs;
- Provide solid data to U.S. cities on the economic impact their local sister city programs provide in order to grow even more programs worldwide;
- Strengthen the economy locally and nationally;
- And support our national security.

Funding from the U.S. Dept. of State plays a key role in our mission, but most of our work is made possible through the support of our Global Leaders Circle. The Global Leaders Circle is your opportunity to publicly demonstrate your support of our mission to connect locally and thrive globally. We invite you to be part of this thriving network of individuals, businesses, and organizations by investing in SCI today.
