Celebrating 63 years of advancing peace and prosperity through cultural, educational, humanitarian, and economic development exchanges
CONNECT GLOBALLY. THRIVE LOCALLY.

Sister Cities International is a nonpartisan 501(c)(3) nonprofit which serves as the national membership organization for individual sister cities, counties, and states across the United States.

This network unites tens of thousands of citizen diplomats and volunteers in 500 cities with over 2,000 partnerships in more than 140 countries.

Sister Cities International was created at President Eisenhower’s 1956 White House summit on citizen diplomacy, where he envisioned a network that would be a champion for peace and prosperity by fostering bonds between people from different communities around the world. By forming these relationships, President Eisenhower reasoned that people from different cultures could understand, appreciate, and celebrate their differences while building partnerships that would lessen the chance of new conflicts. Since its inception, the Sister Cities International network has played a key role in renewing and strengthening important global relationships. Our members focus on four main areas of exchange: arts and culture, youth and education, business and trade, and community development.

Our mission:

To promote peace through mutual respect, understanding, and cooperation — one individual, one community at a time.
WHY SPONSOR THE SISTER CITIES INTERNATIONAL ANNUAL CONFERENCE?

Establish meaningful global connections and expand your network

Sister Cities International’s Annual Conference will bring together over 500 elected and municipal officials, business leaders, and engaged citizen diplomats and over 100 high school students from across the U.S. and the globe.

This year, Sister Cities International focuses on the theme “Cities Mean Business,” where you will hear from expert leaders in health, aeronautics, arts and music, business and trade, urban resilience, and disaster relief. We are also featuring two pre-conference symposiums on US / China Diplomatic Relations and Africa. We expect to bring together over 500 elected and community leaders and more than 100 youth participants. Attendees will include national leaders, international diplomats, mayors, local elected officials, city managers, business executives and educators, as well as community leaders.

The Annual Conference is Sister Cities International’s signature event and a way for members from across the globe to convene and share best practices to improve or grow their sister city programs back home. Through numerous networking opportunities, educational forums and sessions, and citywide events that highlight the successful program of the host city, attendees gain important tools and diverse connections to effect change in their local communities.
