

POEM
LETS BE STRONG AND UNITE

We need to unite
And fight the virus
Because covid-19 will end

For the past 10 years
We could gather with
Our family and friends spend
time together, having fun
and lot of jokes.

But now is like committing
A crime, you can no longer spend
Time with your friends due to covid-19

We even lost our family members
And friends, that were taken by this
virus

we need to unite in hope
and find a solution on
now to reduce covid-19 in
Namibia

Therefore, lets unite in hope
And bring this virus to
an end and go back to
the normal life as usual
