

# HOPE

We are united in hope  
The pandemic brought  
Damage, damage brought  
Disruption, disruptions  
Brought disappointment  
The pandemic brought depressions

We have been united in the hope  
Since the introduction of the  
Pandemic  
We lost hope, and  
It left us depressed and alone  
We lost the people that we love  
But the white dove  
Gave us hope

United in hope  
We are united in hope  
After the fate of the  
Pandemic  
We have once again received  
Hope and happiness

The next generation will  
Enjoy what's coming

United in hope  
We are united in hope  
The next generation  
Would enjoy it all  
As I set them free  
Life birds
