

## SCI SISTER SCHOOLS FORUM

### CONCEPT

- 1) The forum would showcase sister school initiatives.
- 2) The Zoom forum could be a panel of practitioners that would include several breakout rooms designed around E/M/HS levels. Other breakout options are also possible.
- 3) The forum would share the SCI resources that are available to assist with the establishment, maintenance, and enrichment of these relationships.
- 4) Schools, cities, and administrators would share their challenges and solutions.
- 5) Participants would make recommendations for resources they would like SCI to provide.
- 6) These resources, toolkits, materials, and future programs would be developed and made available to members only.
- 7) The forum would be open to members and non-members.
- 8) The forum would be a good way to promote schools as affiliate members
